

Talking Points

About the Army Alliance

- A non-profit civic organization
- Secured over \$200 million for APG and the surrounding region
- Works to preserve APG as a cornerstone for national excellence in RDT&E

Regional Issues

Budget Reductions

- Expecting cutbacks in most programs with associated workforce reductions
- Significant competition among states for future BRAC growth
- Must protect missions, programs, and jobs at APG, and guard against relocation

Infrastructure

- Improve transportation options including increased multimodal capacity and regional rail upgrades
- Advocate for road and intersection improvements needed to ease congestion and position APG for expected DoD realignments
- Needed: \$122.5 million for major road improvements in immediate vicinity of Aberdeen Proving Ground

Education

- Broad range of baccalaureate, graduate and PhD-level programs in science and engineering needed
- STEM education is top priority in Northeastern Maryland
- Regional strategy for STEM education under development
